CTGHS NAMED CATEGORY LEADER FOR CLINICAL IMPLEMENTATION PRINCIPAL BY KLAS ENTERPRISES

***‘TOP 20 MID-YEAR REPORT CARD’ ALSO RANKS CTGHS AS SECOND
IN KLAS PROFESSIONAL SERVICES OVERALL RANKINGS***

CINCINNATI, OHIO—July 6, 2005—CTG HealthCare Solutions, Inc. (CTGHS), a top information technology (IT) consulting firm serving the healthcare industry, was ranked as the leading implementer of acute care clinical IT systems in the KLAS Enterprises* “Top 20: 2005 Mid-Year Report Card” issued June, 2005. The report is based on interviews with healthcare providers that utilize outside vendors to perform services for their organizations. It summarizes detailed performance data on healthcare IT (HIT) vendors and professional services providers.

The study also named CTGHS as second overall among HIT professional services providers, based on accumulated scores in a range of professional services performance categories. The rating categories included full outsourcing, clinical implementation, financial implementation, and planning and assessment.

KLAS, a research and analysis company that specializes in monitoring and reporting on the performance of HIT vendors and professional services firms, issued its first professional services report in October, 2004. In that study, CTGHS clients rated the company as second in acute care clinical implementations. The October KLAS survey

also found that CTGHS had implemented acute care clinical systems for a wider range of industry software products than any other firm participating in the study.

“The KLAS Top 20 Mid-Year Report Card provides invaluable feedback from our clients,” said CTGHS Vice President for Strategic Planning and Marketing, Clair Detraz. “We’re pleased that CTGHS continues to emerge as a strong industry leader in acute care clinical implementations, and we’re also gratified by our high overall standing relative to our professional services peers. We owe that standing to our ongoing commitment to successful outcomes on behalf of our clients.”

“We believe that consistent quality is built in from the beginning, by combining exceptional, experienced people with robust methods and tools,” said CTGHS President Tom Niehaus. “Continual measurement and feedback, as provided in the KLAS Top 20 Mid-Year Report Card, is an integral part of our overall quality program, which emphasizes planning, process redesign, outstanding project management, and above all, proactive communication with our clients.”

ABOUT CTGHS

CTGHS helps healthcare institutions and related organizations maximize the potential of their information systems to achieve their financial and clinical objectives. Its consulting, clinical, financial, advanced technology, and IT management solutions resolve high-priority IT issues and provide significant return on investment for clients. CTGHS is recognized for its ability to mobilize healthcare and IT expertise, to use proven methodologies, and to draw upon its corporate knowledge base in a client-responsive and cost-effective manner. CTGHS is part of CTG (NYSE: CTG), an international IT consulting and professional services company.
